

Patient Assessment System

Scene Survey

1 - Scene Safety
 2 - Mechanism of Injury/ Nature of Illness
 3 - Body Substance Isolation
 4 - Triage

A = Alert
 V = Verbal
 P = Painful
 U = Unresponsive

Primary Survey

M = Massive Hemorrhage
 A = Airway with c-spine consideration
 R = Respirations
 C = Circulation
 H = Hike/Helicopter and Hypo/Hyperthermia

Secondary Survey

Vitals	SAMPLE	OPQRST	Physical Exam
Time	S = signs/symptoms	O = onset	C = Chest
AVPU	A = allergies	P = palliates/ provokes	A = Abdomen
HR	M = medications	Q = quality	R = Renal/Retroperitoneal
RR	P = past medical/surgical history	R = radiates	T = Thigh
SCTM	L = last meal	S = severity	S = Skin/Street
Pupils	E = events	T = time	

Plan and Problem List Subjective/ Objective/ Assessment/ Plan

Cervical Spine Assessment

C= Cervical midline tenderness
 S= Sensory and/or motor deficits
 P= Pain or psychological distraction
 I= Intoxication
 N= Neurological deficit
 E= Events

Patient with an Altered Mental Status

A= Allergy/Altitude
 E= Environment/ Epilepsy
 I= Infection
 O= Overdose
 U= Underdose
 T= Trauma
 I= Insulin
 P= Psychological disorder
 S= Stroke/ Seizure
